

I've heard there is a possibility that you will give priority to an LPFM station over our local K-Love station. This is very disturbing as we really enjoy K-Love and don't listen to any other station. K-Love is positive, uplifting and definitely family friendly, and it seems there are few stations in this category today. Please let K-Love continue to be available to us here in the Denver area on their current translators. We have enough other kinds of stations already but nothing else like K-Love. Thank you for your consideration.
